

# EXTERIOR STONE

**SecondStone**<sup>TM</sup>  
Reclaimed Granite Products

Solid granite landscaping  
pavers & exterior stone  
made from 100%  
reclaimed material

# Our Story

**SecondStone** is a locally owned Northwest company that manufactures tile, landscaping pavers and interior/exterior stone from reclaimed granite. We are committed to delivering beautiful, durable products while ensuring environmental responsibility & sustainability.

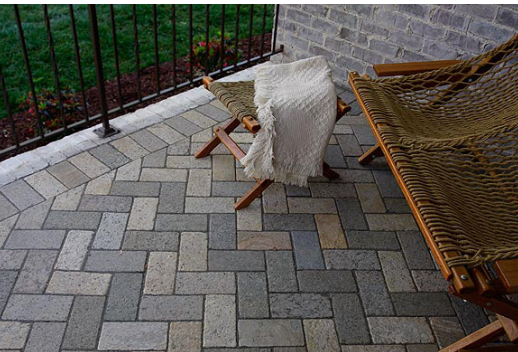

## Reclaimed Granite

A typical granite installation results in roughly 30% waste material. At 15 to 22 pounds per square foot, this translates into thousands of tons of waste material in landfill each year. SecondStone collects this waste material from local stone fabricators and uses a patented process to create solid granite tile and pavers. Any resulting waste material is recycled to produce decorative gravel and aggregate - with zero waste and nothing going into landfill.

**Our goal is to keep more than one million pounds of waste material out of our local landfills each year.**

# Beautiful. Natural. Sustainable.

# Applications

- Patios
- Paths & Driveways
- Outdoor fireplaces
- Outdoor kitchens
- Planter boxes
- Retaining walls
- Fountains
- Columns

# Shapes & Sizes

6" x 9"	Rectangle
4" x 8"	Rectangle
3" x 6"	Rectangle
8" x 8"	Square
4" x 4"	Square
7" x 7"	Hexagon (Honeycomb)
6" x 4"	Diamond
1" x 9"	Chisel (Stacked Stone)
Custom	Create your own shape

# Options

## Colors

- Light Blend
- Dark Blend
- Mosaic

## Thicknesses

- 3cm (~1.25")
- 2cm (~0.75")

# Chisel

The Chisel shape (shown left, on grill and planter box) can be compared to stacked stone and offers dimension and texture. Use it to add a unique look to outdoor kitchens, planter boxes, retaining walls, columns, fireplaces, or as striking accent to virtually any hardscape.

Never before has granite been a cost effective option as an exterior hardscape material. SecondStone granite pavers offer a unique blend of colors and textures unlike any manufactured material. Made from *solid* granite (not crushed and reconstituted), they are extremely durable. SecondStone Products come in several shapes and sizes and are available in three color choices: "Light Blend", "Dark Blend" and "Mosaic".

**Feel good about your choice knowing that for every 100 square feet of SecondStone pavers you install, you will be keeping more than 1,500 pounds of waste material out of your local landfill.**
